International and National Collaborations

As a graduate program committed to advancing the quality of higher education management, the Master in Higher Education Management (MMPT) at Universitas Gadjah Mada (UGM) actively fosters collaborations with various partner institutions, both at the international and national levels. These collaborations are driven by the need to expand academic networks, enrich the learning experience, and respond to the dynamic challenges in the global landscape of higher education.

Objectives:

The primary goals of these collaborations are:

1. To strengthen the academic quality and relevance of the MMPT curriculum through joint academic and research initiatives.
2. To provide students and faculty with exposure to global best practices in higher education governance and innovation.
3. To facilitate knowledge exchange and capacity-building efforts across institutions.
4. To enhance graduate competencies through collaborative research, education, and community engagement.
